

**Welcome letter of the
Executive Director of the
American Chamber of Commerce
in the Kyrgyz Republic
D. Imanaliev**

Ladies and gentlemen!

On behalf of the American Chamber of Commerce in the Kyrgyz Republic (hereinafter - the Chamber), let me welcome you at the largest intersectional event of the country - the 19th “Construction, Energy, Special Equipment, and Security” International Congress and Exhibition Forum.

As a leading international business association striving to create a favorable and competitive business environment in the Kyrgyz Republic, the Chamber is always ready to cooperate in conducting industry events.

Our Chamber which unites more than 80 enterprises from different sectors of the economy is interested in promoting the potential of domestic and international investors and improving the conditions for doing business in the country.

The mission of the “Construction, Energy, Special Equipment, and Security” Forum coincides with the goals of the Chamber, because specialized expositions, which have become key B2B platforms for discussing a wide range of issues, are aimed at creating a favorable business environment and facilitating the development of partnerships between the largest industry players in Central Asia and abroad.

I am sure that the expositions of the forum, where new ideas and approaches to solving problems are traditionally emerging, will contribute to a successful dialogue between specialists, the scientific community, government agencies and the business segment and will help in the implementation of tasks for innovative development and modernization of specialized segments of the economy.

I wish successful and fruitful work, productive discussions and the implementation of all plans for you!

**Executive Director of the
American Chamber of Commerce
in the Kyrgyz Republic**

D. Imanaliev
