

**Welcome letter
from the Chairman of the
Union of Builders of
the Kyrgyz Republic
Moldobaev A.M.**

Dear colleagues, guests and participants!

The Union of Builders of Kyrgyzstan is pleased to welcome you at the 19th “KyrgyzBuild” International Specialized Exhibition of Construction and Interior held within the framework of the annual “Construction, Energy, Special Equipment, Security” International Congress and Exhibition Forum.

The domestic construction industry is in the mode of constant updating, improvement of materials and technologies. At the moment, the industry, which occupies one of the leading places in the structure of the country’s GDP, employs tens of thousands of workers, each of whom must have profound skills and knowledge.

The “KyrgyzBuild” exhibition serves as an effective platform for exchanging information with industry experts, forming new ideas and opportunities, and developing standards. The exposition contributes to the strengthening of international and intersectional cooperation, stimulating the consolidation of architects, urban planners, investors, manufacturers and other categories of persons who make up the target audience of the Forum.

I am sure that holding the “KyrgyzBuild” Exhibition of Construction and Interior will serve the confident introduction of high-quality materials, the latest technologies and equipment in the territory of the Kyrgyz Republic and the implementation of a course for the progressive development and modernization of the industry.

I wish constructive dialogue, success in implementing plans and all the best to the organizers, participants and guests of the Forum.

**Chairman of the Union of Builders of
Kyrgyzstan**

Moldobaev Askarbek Moldobaevich
