

**Welcome letter from the
President of the KUIE
Ibraev D. T.**

Dear colleagues!

Welcome at the 19th “Construction, Energy, Special Equipment, and Security” International Congress and Exhibition Forum.

It is a great honor for the Kyrgyz Union of Industrialists and Entrepreneurs (KUIE) to be a partner of the largest industry business forum in Kyrgyzstan designed to familiarize specialists with the latest technologies in construction, energy, transport and logistics complex and industrial safety sector.

Scientific developments, innovative technologies and unique materials exhibited at the forum contribute to the growth of domestic and foreign enterprises, strengthening their competitiveness, expanding cooperation and developing the export potential of manufacturers representing Kyrgyzstan. At the same time, the use of innovations and technologies largely determines the successful and sustainable functioning of the relevant sectors of the economy of Kyrgyzstan.

I am sure that the “Construction, Energy, Special Equipment, and Security” Forum will become a link in a unique professional dialogue about the priorities of the development of the previously designated industries, and will also allow practitioners, the business community and other interested parties to discuss ways to solve current problems, exchange experience, find new partners and conclude mutually beneficial contracts.

I wish interesting meetings, mutually beneficial cooperation and success in all endeavors to the organizers, participants and guests of the exhibitions.

**Director of the Kyrgyz Union of
Industrialists and Entrepreneurs**

Ibraev Danil Tursunbekovich
